### LBC

2019-07-02 - 2020-12-02

The web application features options for the LBC customers in the Philippines to schedule a pickup or drop-off request for the packages that they need to ship, track their packages, print labels for the packages, manage account and wallet, etc. Customers also have the option to add addresses to their address book and choose from it during scheduling a booking. They can also choose a location from the map and the address data will be auto-filled with the help of Google places API. By default, the location of the customer that logged in will be displayed on the map.

For user registration, login, management, and authorization **Google Firebase** are used. It is also an option for the customers to register and log in with their Facebook account.
